PROFESSIONAL SUMMARY

Software Engineering Technology student with hands-on experience in backend systems, REST APIs, AI/ML-powered cybersecurity applications, and NLP solutions using Python, FastAPI, and JavaScript. Skilled in scalable data pipelines, phishing detection systems, machine learning model development, and cloud-backed deployments. Currently contributing to DefenceNet at Datacove.ai, developing AI-driven solutions for real-time phishing prevention and threat analysis.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, C#, Kotlin, HTML, CSS

Backend & APIs: FastAPI, REST APIs, Spring Boot, Node.js, Express.js

Databases: PostgreSQL, MongoDB, MySQL

AI / ML: scikit-learn, spaCy, PyTorch, Pandas, NumPy, TF-IDF

Cloud & DevOps: AWS (EC2, S3, CLI), Render, Git, GitHub

Core Concepts: Data Structures, Algorithms, OOP, System Design, Linux, Cybersecurity

EXPERIENCE

General AI Developer Intern – Datacove.ai | March 2026 – Aug 2026 | Toronto, ON

DefenceNet – AI-Powered Anti-Phishing Platform

- Contributing to the development of an AI-powered phishing detection platform protecting users from malicious web, email, and SMS threats.
- Built and enhanced machine learning workflows for phishing URL detection using behavioral analysis, SSL validation, domain intelligence, and redirect pattern analysis.
- Assisted in developing real-time threat scoring systems to classify URLs and identify phishing before user interaction.
- Improved phishing detection accuracy through data preprocessing, feature engineering, and model evaluation.
- Integrated AI models into scalable backend services using Python, FastAPI, and REST APIs for cloud-based deployments.
- Collaborated with engineering teams on cybersecurity solutions focused on proactive threat detection and prevention.

PROJECTS

SkillVector – AI Career Strategy Engine – *Python, FastAPI, React, PostgreSQL, spaCy, scikit-learn*

- Engineered NLP-based skill matching system analyzing resumes vs job descriptions using TF-IDF and cosine similarity.
- Developed RESTful APIs with FastAPI and deployed to cloud infrastructure.
- Optimized scoring algorithm, improving candidate-job alignment accuracy by 70%.

Aura Dental – Clinic Management System – *Node.js, Express, MongoDB*

- Designed RESTful API architecture for appointments, billing, and patient management.
- Modeled MongoDB schema supporting 500+ patient records and secure CRUD operations.

EDUCATION

Software Engineering Technology – Advanced Diploma – Centennial College | Sept 2024 – 2027 | CGPA: 3.7/4.5

Relevant Coursework: Data Structures & Algorithms, Advanced Database Concepts, Software Systems Design, Unix/Linux, Linear Algebra & Statistics, Software Testing & Quality

CERTIFICATIONS

AWS Certified Solutions Architect – Associate (2026) | Amazon Web Services | [View Certificate](#)
