## SUMMARY

Software Engineering Technology student with hands-on experience in Python, C#, Java, JavaScript, SQL, HTML/CSS, cloud fundamentals, and modern web development. Currently working as a Business Development Executive at Datacove.ai, where I help law firms adopt AI-powered workflow automation. Passionate about the intersection of AI, technology, and business, and eager to contribute to meaningful, fast-moving projects in engineering or early-stage startups. Recognized for strong problem-solving, communication, and adaptability.

## EXPERIENCE

### Datacove.ai

Founders Team  
ON

Mar 2025 – Present | Toronto,

Datacove.ai is an Agent-as-a-Service platform that delivers plug-and-play AI workflows for SMBs and enterprises, especially in the legal sector.

- Leading outreach and relationship-building with law firms and legal teams across Canada and US.
- Communicating Datacove's AI workflow solutions (legal document automation, notice analyzer, virtual court prep, phishing detection).
- Translating technical AI concepts into simple, engaging explanations for non-technical audiences.
- Supporting product demos, client onboarding, and early user feedback loops.
- Helping the team refine messaging, GTM decks, and workflow explanations for partners.
- Working directly with founders on growth, partnerships, and real-world AI adoption challenges.

## TECHNICAL SKILLS

Languages: Python, Java, C#, JavaScript, HTML, CSS, SQL

Tools & Frameworks: Node.js, AWS, Git/GitHub, JSON APIs, Responsive UI/UX

Interests: AI/ML, Cloud Computing, System Design, Web Development

## COLLEGE PROJECTS

- Aura Dental — Luxury Dental Clinic Management Web Application)  
A responsive dental clinic management website featuring a luxury UI, patient CRUD system, interactive dashboard, and dynamic user reviews built with HTML, JavaScript, and Tailwind CSS.

- Toronto – The 6 (Cultural Web Portal)  
Built a responsive informational platform showcasing Toronto's culture, history, and major landmarks (CN Tower, Distillery District). Designed dynamic sections with visuals and optimized mobile experience.
- National Geographic – Conservation Explorer  
Created an educational web platform featuring conservation areas across global regions. Integrated multimedia and structured content from WWF, UNEP, and IUCN to enhance learning.
- Real Estate Website  
Developed a modern real estate site with property listings, market insights, FAQs, and lead-generation tools. Designed clean UI and responsive layouts.
- Porsche 911 GT3 RS Showcase  
Built a high-resolution product showcase website with structured specs, performance data, and brand-aligned visuals inspired by luxury automotive design.
- Portfolio Website  
Personal portfolio highlighting skills, education, and projects. Integrated resume download, responsive design, and clean navigation to support interviews and client inquiries.
